

TERRALUXE OVENS MODEL: DPO 3.5.

DPO 3.5 (COMPACT OVEN WITH RADIANT FLAME DISPLAY GAS SYSTEM)

The TerraLuxe DPO 3.5 oven is manufactured from the high grade castable ceramic material enclosed completely in a housing of 1/4" thick mild steel. This mild steel outer frame and associated built in lifting hooks make installation easy and eliminates potential damage to the oven. The inside dimension of the cooking surface is 34" X 34". (8 ft2.) This oven is delivered in 2 pieces. With the legs fitted, the oven can be positioned, connected to services and its ready to go in just a couple hours. The oven is listed with UL and has EPH/NSF4 classification. The gas system meets AGA/CSA requirements. The same oven may use wood, coal or gas fuel. From a cooking perspective, the oven will operate superbly whether fired by coal, gas, wood or a combination of the two fuels.

The cooking surface of the oven uses high quality 3" thick alumina bricks, renowned for their excellent cooking attributes and incredible wear resistance. The use of bricks avoids the unsightly cracking associated with one piece floors. These bricks sit on a 1" VF insulating board and a further 1/4" reinforced steel base.

The unique design of the ovens gives them the cooking advantages of a fully assembled unit whilst having incredible installation flexibility of a modular oven that can fit through a standard 32" doorway. The reduced installation costs can be significant. The oven body comes with an unmatched, exclusive 4 year guarantee.

The oven body comes with an unmatched, exclusive 4 year guarantee. The oven can be installed to within 1" of non-combustible material, check for local building and fire codes. The oven exhausts through an "eye brow canopy/spigot" above the mouth. The oven must be vented in accordance with local and/or national codes.
