

PROGRILL™

High Production Grilling Perfection

CS157 Compact Clam Shell Grill

The ProLuxe ProGrill is a high-production grill that is engineered to provide you with reliable production and high quality product. Simple controls make it easy to operate, and our exclusive patented manufacturing process casts the heating elements into the platen, resulting in more even heat distribution and longer life expectancy. The top and bottom platens offer adjustable convenience and easy access cleaning. The unique upper floating platen automatically adjusts to the thickness of your product for even grilling unlike any competitor. You can prepare sandwiches, steaks, chicken, vegetables, tortillas, quesadillas, burritos and many other menu items.

Product Features:

- No Conduits. Wiring is run through the handles to eliminate the use of conduits.
- Embedded heating elements are covered by our exclusive ProLuxe Limited Lifetime Warranty
- Ease of cleaning. Sleek design is simple to clean and provides the necessary guards for operator safety.
- Embedded patented heating element creates even heating distribution and faster recovery.
- Our patented leveling system will ensure that products up to 3" thick will be grilled evenly.
- Temperature control located on front with easy to operate functionality
- One 7" by 15" special heavy-duty double grilling surfaces
- Compact size fits almost anywhere
- Exterior cabinet is constructed of type 302 stainless steel with cast aluminum platens
- Available in smooth or panini

In addition to the quality execution and unique customization capabilities, our expert technical support team supports the Clam Shell Grill. We are available 24 hours a day/7 days a week to answer any questions and provide you with great, no-debate service support.
